Members of the Division of Organic Chemistry

You are invited to attend the meetings and to submit a paper for presentation before the Division of Organic Chemistry at the 195th National ACS Meeting in Toronto June 5-10, 1988 as part of the Third Chemical Congress of North America. Requests for hotel reservations should be withheld until publication of the preliminary program in *Chemical and Engineering News*. Instructions for submission of papers are contained on page three (3) inside this letter entitled "Information for Authors of Papers." Please read them carefully. **The deadline for RECEIPT of papers is November 16, 1987. Because of limited Hotel meeting facilities, we (Tom Tidwell, Organic Chemistry Program Chair of the CIC, and myself) request that no more than ONE oral paper be submitted per research group. Additional papers may be submitted for the Monday evening Poster Session.** Please check the appropriate box on the Abstract form regarding oral and poster papers. Some posters may be moved to an oral paper session in the interest of better topical grouping of papers. There will be a divisional social hour in conjunction with the Poster session on Monday, June 6th, at 8:00 p.m. at a location to be announced in *C & E News*.

Annual Volumes of Organic Syntheses
The fourth free copy (Vol. 65, edited by E. Vedejs) was sent to members last spring. Volume 66 is expected to be available in January. *Organic Syntheses* is providing these copies and the Division is paying for their distribution.

Abstracts
The abstracts of papers presented before the Organic Division will be lithographed and distributed to the members of the Division. Complete sets of the abstracts of all papers presented at the Fall 1987 National ACS Meeting may be obtained from ACS Distribution Service. Be sure to indicate Divisional Membership when ordering. A limited number of copies of the abstracts of papers previously presented before the Division are available from the Secretary's office upon receipt of a self-addressed, stamped envelope (at least 8" x 11") and remission of $1.50 per abstract of National Meetings (6 ounces), or $2.00 per abstract of National Organic Symposia (11 ounces).

Dues Increase:
The dues for 1988 will be raised to $7.50. This amount is average for comparable divisions in the ACS and will bring the Divisional income to the level of nine years ago in real dollars.

Notice to Division Members Living Outside the U.S., Canada, and Mexico:
C&E News Information:
Because the Toronto Meeting formation is announced only in *C&E News* and because *C&E News* is shipped seamail to non-North American ACS members, the Organic Division will airmail the Toronto Meeting Information in *C&E News* to all foreign members of the Division who request it by writing the Secretary prior to December 31, 1987.

Abstracts:
Since the divisional abstracts for national meetings are sent by surface mail, some members may not receive the abstracts before the meeting. Members who attend the meeting and have not received divisional abstracts may obtain a set of abstracts free of charge from the ACS Operations Office at the meeting.

American Chemical Society-Division of Organic Chemistry Information for Authors of Papers.

I. ACS Requirements

The Bylaws of the American Chemical Society place the following requirements on papers that are presented at National ACS Meetings.

1. ACS Membership

At least one author of each paper must be a member of the American Chemical Society, unless all the authors are not chemists or engineers residing in the United States.

II. Organic Division Requirements and Policies

The Organic Division has the following Bylaws and policies pertaining to **ORAL PAPERS and POSTERS** submitted for presentation at National ACS Meetings.

1. Under no circumstances should a paper appear in print in a journal other than as a communication to the editor before the oral presentation. Responsibility for ensuring that this policy not be violated rests solely with the author(s). If a manuscript is accepted for publication prior to or shortly after submission of the paper for presentation at a Meeting, the author(s) should specifically request the editor to arrange publication in an issue that is circulated after the ACS Meeting.

2. Short Abstracts.

Four identical copies of a 150-word (or equivalent) abstract are required. The original must be typed on the new abstract form and submitted with three Xerox or carbon copies on at least 16 lb. bond paper. The abstract itself must be kept within a 7-1/2" X 3-1/8" area. The preparation of a short abstract demands care and attention since direct photoreproduction will be used.

ABSTRACTS WHICH DO NOT FIT IN THE ALLOTTED SPACE WILL CONSTITUTE GROUNDS FOR AUTOMATIC REJECTION OF THE PAPER. NO NOTIFICATION OF REJECTION ON THIS BASIS WILL BE PROVIDED TO THE AUTHORS UNTIL AS INDICATED IN NUMBER 6 BELOW.

3. Long Abstracts

One copy of a long abstract (at least 1,000 words) of the paper to be presented which contains a detailed description of the experimental work upon which the paper is based must be submitted. A copy of the manuscript in a form to be submitted for publication constitutes an ideal long abstract. No paper can be accepted for the meeting program unless it is accompanied by a long abstract. After the long abstract has been reviewed in preparation for the program, the long abstract of each paper accepted will be sent to the chairman of the session in which the paper is to be presented. The presiding officer will either serve as discussion leader for each of the papers in his session or will appoint some other person to serve as discussion leader. The long abstract cannot be returned. Manuscripts for publication should be sent to the editors of the journals and not the Secretary of the Division. The long abstract will not be required of CIC members who submit their abstracts to the Ottawa address for the Toronto Meeting.

4. Deadline for Receipt

The original and three copies of the 150-word abstract and one copy of the 1,000-word abstract should reach the office of the Secretary no later than November 16, 1987. Since the program is arranged and the 150-word abstracts mailed to Washington immediately after this date, no papers can be withdrawn, or changed after November 16, 1987. Please be certain of your plans before submitting a paper. **PAPERS POSTMARKED BEFORE BUT RECEIVED AFTER THE DEADLINE WILL AUTOMATICALLY BE CONSIGNED TO THE POSTER SESSION.**

5. Scheduling of Papers

Insofar as possible, the papers are arranged according to subject matter. Please do not request the scheduling of a paper at a specific time unless a conflict **WITH ANOTHER ACS PROGRAM** makes it impossible for you to attend on certain days. However, if such a conflict exists, please advise the Secretary no later than November 16,1987. **REQUESTS FOR PARTICULAR TIMES FOR PRESENTATION WITHOUT INDICATING A CONFLICT WITH AN ACS FUNCTION WILL AUTOMATICALLY CONSIGN THE PAPER TO THE POSTER SESSION.**

6. Notification of Acceptance

The author presenting the paper will be notified of the date and time when the paper has been scheduled approximately five weeks after the Secretary's deadline. If a paper cannot be accepted, the author will be notified of this fact approximately four weeks after the Secretary's deadline, and all of the abstracts will be returned.

7. Acknowledgment of Receipt

Any author desiring acknowledgment of receipt of a submitted paper should include a self-addressed, stamped postcard.

III. Slides and Oral Presentation

Each meeting room will be equipped with a blackboard and with projection facilities for 2'' x 2'' slides and overhead transparencies. Authors should be sure their slides are legible and present a reasonable amount of data on each slide. Manuscripts should not be read verbatim. The Executive Committee recommends strongly that each paper be presented by the senior author. However, whether the paper is presented by a junior or senior author, the presentation should be carefully prepared so that it is properly timed and of high quality. Since the time allotted to each oral presentation is only fifteen minutes it is suggested that no more than ten slides be used in the presentation. Further, the material on the slides should presented horizontally. The projectors will NOT be set to accomodate "vertical" slides.

IV. Poster Session

Boards (4' x 8') will be available for each Poster paper. Plan to use large letters for the title, authors, and affiliation. Do not use pica or smaller fonts for figures or text. Minimize text and maximize the number of figures, schemes, and structures.
